

Title	Placement Student Survey
Description	This is a student survey designed to collect feedback on student's work placement experience
User	Completed by the student at end of their placement experience
Goal	To provide the VET provider with feedback on the students' placement experience and for subsequent students researching potential placement providers
Objective	Feedback allows the VET Provider to reflect on the overall student experience and to improve the quality of the placement provision
Method	The survey can be completed online or in hard-copy – an online survey facilitates more efficient data analysis
Recommended Use	Students should be given the opportunity to reflect on and discuss their work placement experience prior to being presented with the survey. This will allow students to develop their thoughts and give more precise feedback.
When	Completed on the students' return from work placement
Language	English
